

Cases

Written by the researchers themselves, these eye-opening case studies follow real research projects – walking you through why methods were chosen and how the inevitable unforeseen challenges were overcome. Explore and learn from the realities of research, so often left out of journal articles and textbooks.

Use this collection to

- Discover methods appropriate for your study – search by discipline for methods used successfully in similar projects to yours
- Learn first-hand about the decisions and pivots that researchers often need to make
- Easily adapt cases for coursework with the provided learning objectives and discussion questions

Updated annually with fresh, topical, and diverse content.
